

accident, and attended to administering to the wounded, informs us, that the accident occurred near Burlington, not Alton upwards of three hundred miles above St. Louis. Nineteen were buried near the spot where the explosion occurred; four a short distance below; one at Alton; and two at St. Louis. In all 26. One female and her child, deck passengers, were among the number. The conduct of the Captain of the Dubuque, in leaving them exposed on the deck, when wounded is represented by our informant, as any thing else but gentlemanly.

**Another Explosion reported.**—The Cincinnati Post of 26th says: "It was currently reported this forenoon at the landing, that the Quincy had burst a boiler just after leaving St. Louis, and scalded nine persons. No further particulars."

**Commercial Courier.**

CAMDEN, S. C. SEPTEMBER 9, 1837.

It is almost unnecessary to inform our readers that we have returned to the relief of our friend who, for several weeks past, had kindly favored us with his services, as the want of the same experience in the management of the Editorial department will alone be sufficient to show.

Mr. Pinckney's majority over Col. Lynch for Mayor of the City of Charleston, is 135 votes. We have not as yet, been informed of the result of the election for State Senator, but are of opinion that Bennett is elected.

The Express Mail bearing the President's Message, arrived at this place between 12 and 1 o'clock on Wednesday night, having reached us sixteen hours earlier than its usual time, from the notice of which—

"The Dogs did bark, the children screamed, Up flew the windows all And every one cried out Express As loud as they could ball."

A review of the Lancaster and Kershaw Regiments took place according to order, at Grier's Store, on Thursday last, under the command of Brig. Gen. James Cantey. The number of men under arms as we are informed, amounted to nearly eleven hundred, eight hundred of whom were from Lancaster and the balance from—

**MILITARY.**—We are informed that a gentleman of known military acquirements, who for several years past commanded the Rifle company of this place, has consented to accept of the Captaincy of the one now in contemplation, for the formation of which a subscription list has been opened at this office. We trust that the young men of our town and district will avail themselves of so good an opportunity of adding an ornament to our Regiment and to our Country a defence, for it cannot be denied that our Rifle corps with the exception of the cavalry are in a country like this, the only efficient troops Awake then to a sense of your own interest in this particular and disengage yourselves from such, who the fear of penalty prompts to duty, and not the patriot's pride.

Mr. Wm. KENNEDY BARCLAY is at present in this place on a professional tour, and may be found at Davis' Hotel, where he will, on Monday next enter on the duties of the profession in which he has established quite an enviable reputation. So good an opportunity may not shortly again be offered our citizens, and particularly those who have anticipated having their portraits taken, they should therefore avail themselves of the present. We were much pleased with the several specimens of Mr. B's talent which we had the pleasure of examining while on a visit to Columbia, of which place he is a native, and have no doubt he will give ample satisfaction to such of our citizens as may be disposed to encourage native talent.

HENRY SHULTZ has been appointed and recognized as Consul of his Majesty, the King of Hanover, for the port of New Orleans.

**TORNADO.**—The Charleston Patriot says a Tornado passed over Woodstock at 12 o'clock on Saturday, which in its course prostrated the Breakfast House, fences, &c. besides killing a prime young negro fellow.

We also learn that considerable damage from the same visitation has been done to Mr. Paul C. Grimball's plantation, John's Island, in the destruction of his negro houses, and that on James Island the gale was considered far more destructive than either of the former.

We extract the following from the Findlay, (Hancock county, Ohio,) Courier of August 3, which is certainly the most remarkable phenomenon, we remember ever having read of. The country for miles round, presents nearly a dead level.

**STRANGE PHENOMENON.**—On Saturday the 29th ult. Mr. Richard Wade, jr. was engaged in digging a well on his premises, about four miles south of Findlay; after having dug down something like 18 feet, the appearance of water was evident. Mr. Wade being anxious to obtain water, seized a crowbar, which was standing near, and made several strokes near the centre of the well, whereupon the water gushed forth in vivid torrents. Had not Mr. Wade been extremely active in attempting to escape, he would have perished almost instantly. At the time of the water gushing forth, a continued roaring ensued similar to a loud clap of thunder, which shook the earth violently for several hours. By an application of a fire brand to the water, it took fire and burnt like Alcohol; the blaze struck five feet above the surface of the well, and at the same time burning the Punctons that lay on the top of the well. The water still continues to boil.

**LATER FROM FLORIDA.**

St. AUGUSTINE, Aug. 19. **Our Indian Affairs.**—We learn by an express which arrived here on Thursday from Gen. Jesup's Head Quarters, that information had reached there that the Indians were assembling in great numbers in the neighborhood of Fort King. They expressed nothing but the most friendly intentions as usual. It is said to be Gen. Jesup's opinion that they contemplate an attack upon some point; he has gone to Fort King. Gen. Jesup has ordered the purchase of horses and mules for the ensuing campaign.

The force to be employed in the coming campaign will be large, and we are inclined to think, very efficient. The 1st and part of the 2d Regiment of Infantry, and the remainder of the 2d Regiment of Dragoons, have been ordered to Florida, and from 1500 to 2000 volunteers, mostly Floridians, and well mounted, have been raised, organized, and mustered into the service of the United States. The whole army will probably be composed of about 6000 men.

The opinion is expressed by some that when they find the large and overwhelming forces which will be brought against them, they will make an unconditional surrender.

By an order of Gen. Jussup, all Indian property is declared to belong to the captors. This is an additional stimulus to every individual belonging to the army to exert himself, and we doubt not that immense havoc will be committed among the enemy's ranks. All will be done that can be done to rid the country of its terrible enemy speedily.

**INDIAN BATTLE.**—We are informed by a gentleman from St. Joseph, that information had been received at that place of an engagement of Col. Brown's command with the Indians in West Florida, near Alaquia. Captain Hawkins, of the Franklin volunteers, is said to have behaved very gallantly, and received three wounds, none of which, however, are considered dangerous. His first Lieutenant Mr. Myers, and also three privates were wounded. A Mr. Clarke was killed on the ground. The engagement lasted about fifteen minutes, when the Indians retreated leaving five of their dead behind.

**STRIKE FOR WAGES.**—We are informed that the Irish laborers upon the New York aqueduct at Sing Sing, turned out on Monday last, to the number of 2 to 300 for higher wages. They complain that the present rate, (4-6 per day) is not enough to support them. No disturbance took place in consequence; and no apprehension was felt among the inhabitants of any riots or depredations. Whether the contractors would accede to the demand of the laborers (for 7s per diem) was not known yesterday, but the men had not returned to their work.

We learn from Capt. Lockwood, that St. Thomas and St. Johns, P. R. were visited on the 5th of August, by a very violent earthquake and hurricane, which destroyed nearly all the buildings in both towns. An American ship from Philadelphia, a brig and schr. also American, and 2 Danish ships sunk at their anchors and nearly all the crews perished.—N. Y. Courier.

**SHARP SHOOTING.**—A New York paper informs us, that "a volunteer company of that city lately went on a shooting excursion, and that two of them actually hit the target!"—Bah! Tennessee school-boys could shoot the "hind sights off" of such fellows!—Jonesboro Sentinel.

**DEATH OF A MEMBER OF CONGRESS.**—Col. James Standifer, of the 4th district of this State, died on Sunday, the 20th inst., while on his way to Washington city, at Kingston, in Roane County. Col. S. distinguished himself by his brave and gallant conduct in the Indian wars of 1812 and 14, and has been for many years past in the Congress of the United States. His district will be without a representative at the early session, but the vacancy will doubtless be filled before the commencement of the regular session.—Ib.

**AMUSEMENT OF THE DAY.**—Four duels at or near the Bayou Road, a deer hunt at Carrollton, an expedition to Rambler-ville, roulette and pharo at the Lake, mint juleps and milk punch at the Rialto, ice cream and music at the Pavillion, sermons in the churches. These are the principal means of passing pleasantly a Sabbath in New Orleans at this season. It affords a dish for almost every taste, though the appetite which can relish portions of it must be depraved. However, *de gustibus non disputandum*, and we hope all parties will be satisfied.—N. O. Paper.

**KENTUCKY PRENTICE.**—"The government, amid all the existing embarrassments will keep cool."—Trent. Em-porium. No doubt of it. It appears to be keeping cool by realizing the fancies of the corpulent man; who dreamed, one intensely sultry night, that, for the sake of refrigerating himself, he got out of his flesh and sat in his skeleton, suffering the wind to blow through his ribs.—Louisville Journal.

The Cincinnati Loco Focos complain that Mr. Webster, when in their city, made a violent attack upon their doctrines, and then departed immediately without giving them time to reply. This reminds us of the Salt River Roarer, who flew into a passion because a cowardly thunderbolt, after hitting him on the head, disappeared

without allowing time to return the blow—Ib.

"Our friend of the Louisville Journal is too severe upon the Van Buren Editors. Why does he not tickle them with the feather end of his quill, instead of running them through and through?"—Vermont Statesman.

We can give as good a reason as the sailor gave for having stabbed with his sword a surly and troublesome mastiff that had attempted to bite him. "Why did you not strike him with the hilt of your sword?" enquired the owner of the mastiff. "I would," said the sailor, "if the beast had run at me with his tail."—Louisville Journal.

**From New Orleans.**

**MEMORANDA.**—The Danish brig, Mack, Capt. Chase, from St. Croix for Philadelphia, in lat. 23, long. 63, on the 9th July, was boarded about sunset by nine men in a boat, each having on a short duck frock, from a vessel about 8 miles to leeward—which they reported to be a Spanish brig from Sierra Leone, bound for N. O., 60 days out, with 160 passengers! The weather was nearly calm, and the vessel was first seen early in the afternoon.—The boat had several small kegs, which they said they brought to get water.—There appeared to be but little subordination among them; and as soon as they came alongside of the Mack, the whole of them came immediately on the quarter-deck and, asked for some water.—The captain gave them a barrel of water, which was all he could spare. They then requested him to alter his course and bear down for the brig—as their boat was leaky, and could not carry the water.—The captain asked them why so many came in her if she was leaky, as four were enough to row her. To this they made no reply. They remained on board till quite dusk, when the captain peremptorily ordered them to leave his vessel, which they showed no disposition to do, repeating that their boat was leaky and unsafe—and telling the captain, "don't be afraid." But as the brig had a strong crew, equal in number to them, and a large dog, and a passenger (from New York, who let them see the ends of two horse pistols under his coat, they at length, when it was quite dark, left the brig. The next morning nothing was seen of them. The circumstances render it very likely that it was the same vessel which boarded the Tantiwy.

By the Levin Jones, from Tampico, \$236,614 in specie have been received. By her we have received an important document relative to the conduct of the Mexican authorities to the United States' citizens residing there, which is calculated to excite feelings of the deepest disgust and indignation in this country. It appears that the presence of Commodore Dallas, if any they had the effect of causing additional insults to be heaped on these men, to such a degree, as to render further residence in the country nearly intolerable. From the lateness at which we received the communication, and the sickness of some of our hands, we are unable to give it insertion this publication, however it shall appear in our next.

**Commercial.**

**BALTIMORE, Sept. 1**  
FLOUR.—Howard street.—The receipts begin to improve a little, but the demand for the article is not brisk, and prices have declined from the rates of last week. The uniform wagon price is \$825 and the store rate \$850, at which, limited sales are making.  
FLOUR.—CITY MILLS.—Sales are making at \$8, a \$8 50, according to quality. The stocks in the hands of millers are light, and the demand nearly equal to the supply.

**NEW YORK, Sept. 1**  
THE MARKET.—The business in exchanges by the packets of this day has been very small. The amount of specie shipped to-day, is about as follows:—  
To London, . . . . . \$200,000  
" Liverpool, . . . . . 150,000  
" Havre, . . . . . 30,000  
\$380,000  
The prices at which this specie has been purchased, correspond with the report of prices connected with the report of business at the Broker's Board.  
Cotton is rather more active. Groceries generally, are without much action. The Corn Exchange is as before.

**LIVERPOOL, July 29.**  
COTTON.—The business in the early part of the week was limited, but the demand has since been more regular, and the market has closed firm at the full prices of last week, for all descriptions, excepting Surat, of which at a public sale of 800 bales yesterday, only 200 were sold at 1-8d per lb. decline from previous rates. Speculators have taken 2,500 American, 130 Maranhon, 50 Peruvian, 800 Surat and 60 Madras.

**HAVRE, July 23.**  
COTTONS.—The arrivals since our last publication, have been considerable, amounting to 11,214 bales as follows, viz: 10,633b. United States; 51b. Guadeloupe; 57b. Cayenne; 53b. St. Domingo; and 1,400b. Bengal.  
These supplies, and a very languid demand, have caused a further reduction in our rates for United States short staple descriptions, estimated at about 5 centimes per 1-2b, but bearing principally on the middling qualities. There has been little business in Brazil, the prices of which are feebly supported, and the market closes, on the whole, very flat for every description of cotton.

The packet ship Hibernia, Wilson, arrived at New York, from Liverpool, on last Wednesday,

with accounts from Liverpool, to the 1st of August.

**CHOLERA IN NAPLES AND SICILY.**—The accounts up to July 14, represent the ravages of cholera as truly frightful. Trade and commerce were paralyzed. The papal dominions are barricaded to keep out the contagion.

Among the deaths announced at Palermo, is that of Mr. Gardner, U. S. consul general.  
**PORTUGAL.**—A military insurrection had broken out in the North of Portugal, and the charter has been proclaimed by all the troops.  
Up to July 27th at Lisbon, the country was quiet, the government much alarmed.  
Letters from Havre to the 24th of July state, that there had been a further decline in cotton of five centimes.  
Money was very plenty in London, and also in Belgium and Holland.
